## FOREWORD

Our propagation is limited to trees, including many new varieties that hold promise for California landscape; but we also carry a fine line of shrubs, bedding plants, fertilizers, seeds, and pest controls.

As we carry a large variety of trees, you the planter should, to make California a more beautiful and interesting state, select trees different from those planted by your neighbors. Let us learn a lesson from the tragedy of the eastern states, where they planted one favorite tree (American Elm), and now two diseases are killing thousands of elms each year in most of the eastern cities, where 90% of all the trees planted in the past were American elms. Since this could happen to any variety of tree in California, if planted too heavily and the right disease came along, let us help you select a tree that will add lasting beauty and color, in a fine variety, to your home and neighborhood.

We welcome you and your arboricultural problems.

This list includes most of our interesting species that average .75 to 1.00 per gal., or 2.50 and up for larger trees in 5 gal. cans, also tub specimens, and field grown material in many varieties.

T. (Tender). When temp. drops below 25°.

HH. (Half Hardy). Should survive ordinary frosts in Southern California.

H. (Hardy). Will stand any Southern California frost.

VH. (Very Hardy). Will stand the worst frost conditions.

DR. (Drought Resistant). ML. (Moisture Lovers), good for lawn specimen.

S. (Small) 15 to 20 ft. M. (Medium) 20 to 40 ft. L. (Large) 40 to 80 ft.

Abies pinsapo (Spanish Fir). Fine Christmas tree for California homes.....	VH. ML. M.
Acacia bailyana (Baily Acacia). Fast growing flowering tree.....	H. DR. M.
Acacia bailyana purpurea (Purple Acacia). Grows like Baily Acacia	
Acacia cultriformis (Knife Acacia). Spring flowering tree.....	H. DR. S.
Acacia decurrens dealbata (Silver Wattle). Spring flowering tree.....	H. DR. M.
Acacia elata (Cedar Wattle). A fern leaf Acacia, extra nice tree.....	H. DR. M.
Acacia longifolia (Sydney Wattle). Shrub like tree.....	H. DR. S.
Acacia melanoxylon (Blackwood Acacia). A dark leafed tree.....	H. DR. M.
Acacia podalyriaefolia (Pearl Acacia). Gray leaves, yellow flowers.....	H. DR. S.
Acacia retinodes (Floribunda). Flowers most of the year, light foliage.....	H. DR. S.

## All Acacias are fast growing trees.

Acer macrophyllum (Bigleaf Maple). A fine maple for California.....	VH. ML. L.
Acer negundo Calif. (Calif. Boxelder). Fine for quick shade.....	VH. ML. M.
Acer palmatum (Japanese Maple). Fine graceful, colored leaves.....	VH. ML. S.
Acer saccharinum (Silver Maple). Fast growing, silver leaves.....	VH. ML. L.
Acer saccharinum var. Wieri (Wier's Cut Leaf). Beautiful foliage.....	VH. ML. L.

<i>Acer saccharinum</i> var. <i>lutesens</i> (Orange Maple). Orange barked maple.....	VH. ML. L.
<i>Acer davidi</i> (Chinese Maple). Striped bark, distinct foliage.....	H. ML. M.
<i>Acer ginnala</i> (AMUR Maple). Graceful tree, beautiful foliage.....	VH. ML. S.
<i>Acer platanoides</i> (Norway Maple). A fine shade tree.....	VH. ML. M.
<i>Acer platanoides</i> SCHWEDERI (S. Maple). Red foliage in spring.....	VH. ML. M.
<i>Acer saccharum</i> (Sugar Maple). Beautiful fall colors.....	VH. ML. M.
<i>Acer rubrum</i> (Red Maple). Beautiful fall colors, shade tree.....	VH. ML. M.

**All maples must have moisture and shelter from wind, or the leaves will burn.**

<i>Aesculus californica</i> (Calif. Buckeye). Pink flowers in spring.....	H. DR. S.
<i>Aesculus carnea</i> (Red Horse Chestnut). Red flowers in spring.....	VH. ML. M.
<i>Albizia julibrissin</i> (Silk Tree). Fern foliage, pink flowers.....	H. DR. M.
<i>Alnus rhombifolia</i> (White Alder). Fast grower, fine shade tree.....	H. ML. M.
<i>Alnus glutenosus</i> (Black Alder). Dark foliage, fine shade tree.....	H. ML. M.
<i>Arbutus unedo</i> (STRAWBERRY Tree). Ornamental flowers, and fruit.....	H. ML. S.
<i>Arecastrum romanoffianum</i> (Queen Palm). A graceful palm.....	HH. ML. S.
<i>Bauhinia variegata</i> (Purple Orchid Tree). Lavender to purple flowers.....	HH. ML.
<i>Betula pendula</i> (European White Birch). White bark, graceful.....	VH. ML. S.
<i>Betula pendula gracilis</i> (Cutleaf Birch). Fine cut, weeping foliage.....	VH. ML. S.
<i>Betula nigra</i> (River Birch). Dark leaves, fine shade tree.....	VH. ML. M.
<i>Brachyiton discolor</i> (Pink Flame Tree). Cut leaves, pink flowers.....	HH. DR. M.
<i>Brachyiton populneum</i> (Bottle Tree). A fine tree for a dry spot.....	H. DR. M.
<i>Brachyiton acerifolia</i> (Aust. Flame Tree). Red flowers, maple leaves.....	T. DR. L.
<i>Broussonetia papyrifera</i> (Paper Mulberry). A fast growing shade tree.....	VH. DR. M.
<i>Callitris robusta</i> (Cypress Pine). Very dark cypress type tree.....	H. DR. M.
<i>Callistemon viminalis</i> (Showy Bottlebrush). Red flowers, penulus foliage.....	H. DR. S.
<i>Caledendrum capensis</i> (Cape Chestnut). Pink flowers, fine tree.....	HH. DR. M.
<i>Camptotheca acuminata</i> (?). Fast growing gray barked tree, new.....	HH. ML. L.
<i>Casimiroa edulis</i> (White Sapote). Fruit and shade combination.....	HH. DR. M.
<i>Castanea sativa</i> (Spanish Chestnut). Fine shade tree for farm.....	VH. ML. L.
<i>Casuarina equisetifolia</i> (Horsetail Tree). Pine like tree.....	H. DR. L.
<i>Casuarina stricta</i> (She Oak). Long pendulous needles, fine tree.....	H. DR. S.
<i>Catalpa bignonioides</i> (Catalpa). White flowers, large leaves.....	VH. ML. M.
<i>Ceanothus arboreus</i> (Catalina Ceanothus). Blue flowers in masses.....	H. DR. S.
<i>Cedrus atlantica</i> (Atlas Cedar). Handsome conifer, rigid growth.....	H. DR. L.
<i>Cedrus atlantica glauca</i> (Blue Atlas Cedar). Glaucous foliage.....	VH. DR. L.
<i>Cedrus deodara</i> (Deodara Cedar). Tall graceful conifer.....	H. DR. L.
<i>Celtis australis</i> (European Hackberry). A fine desert shade tree.....	H. DR. L.
<i>Celtis mississippiensis</i> (S. Hackberry). Elm-like tree for dry soil.....	H. DR. L.
<i>Ceratonia siliqua</i> (Carob). A fine shade tree, also forage for farm.....	HH. DR. M.
<i>Cercis chinensis</i> (Chinese Redbud). The best redbud for So. Calif.....	H. ML. S.
<i>Cinnamomum camphora</i> (Camphor Tree). A spreading shade tree.....	H. DR. L.
<i>Cladrastis lutea</i> (Yellow Wood). Fine white flowering tree.....	VH. DR. M.
<i>Cordyline australis</i> (Green Dracena). A palm like tree.....	HH. DR. S.
<i>Cornus capitata</i> (Evergreen Dogwood). Creamy-white flowers.....	HH. ML. S.
<i>Cornus florida</i> (S. Dogwood). White to pinkish flowers.....	H. ML. S.
<i>Cornus florida Rubra</i> (Red Dogwood). Pink to red flowers.....	H. ML. S.
<i>Crinodendron dependens</i> (Flowering Oak). White flowers, oak like.....	HH. ML. S.
<i>Cupania anacardioides</i> (Carrot Wood). Fine ornamental, large leaves.....	T. ML. M.
<i>Cupressus forbesi</i> (Tecate Cypress). The best for hedges.....	HH. DR. S.
<i>Cupressus glabra</i> (Arizona Cypress). Gray-green foliage, red bark.....	H. DR. M.
<i>Cupressus sempervirens</i> (Italian Cypress). A very formal tree.....	H. DR. M.
<i>Cupressus torulosa</i> (Bhutan Cypress). Blue-green drooping foliage.....	HH. DR. L.
<i>Eriobotrya japonica</i> (Loquat). Fine ornamental fruit tree.....	H. ML. S.
<i>Erythrina crista-galli</i> (Cockspur Coral Tree). Red flowers.....	H. ML. S.
<i>Eucalyptus camaldulensis</i> (Red Gum). Gray bark, shelter tree.....	HH. DR. L.
<i>Eucalyptus cinerea</i> (Argyle Apple). Bluish white leaves.....	HH. DR. S.
<i>Eucalyptus citriodora</i> (Lemon Gum). White bark, fine specimen.....	T. DR. L.
<i>Eucalyptus ficifolia</i> (Red Flowering Gum). Beautiful flowers.....	T. DR. M.
<i>Eucalyptus globulus</i> (Blue Gum). Fuel and windbreak tree.....	HH. DR. L.
<i>Eucalyptus globulus compacta</i> (Dwarf Blue Gum). Low windbreak.....	HH. DR. S.
<i>Eucalyptus lehmanni</i> (Lehmann's Gum). Dense foliage, ornamental.....	HH. DR. M.
<i>Eucalyptus rudis</i> (Desert Gum). A fine shelter tree.....	H. DR. L.
<i>Eucalyptus sideroxylon rosea</i> (Red Ironbark). Pink flowers.....	HH. DR. L.
<i>Eucalyptus torquata</i> (Coral Gum). Red buds that are ornamental.....	HH. DR. S.
<i>Eucalyptus viminalis</i> (Manna Gum). White bark, weeping foliage.....	H. DR. L.

**Other flowering and ornamental Eucalyptus trees will be added to this list when the seedlings become larger.**

<i>Eugenia paniculata</i> (Australian Myrtle). A fine compact tree.....	HH. DR. S.
<i>Eugenia paniculata australis</i> (Australian Cherry). Smaller leaves.....	HH. DR. M.
<i>Fagus sylvatica</i> (European Beech). A handsome shade tree.....	H. ML. M.
<i>Fagus sylvatica riversi</i> (Purple Beech). Beautiful foliaged tree.....	H. ML. M.
<i>Fagus sylvatica fastigiata</i> (Upright Beech). A columnar tree.....	H. ML. M.

### Flowering Trees make the landscape colorful

Feijoa sellowiana (Pineapple Guava). Red flowers, edible fruit.....	H. DR. S.
Ficus carica (Mission Fig). A shade and fruit tree for home.....	H. DR. M.
Ficus macrophylla (Moreton Bay Fig). A spreading rubber tree.....	T. DR. L.
Ficus retusa (Glossyleaf Fig). Attractive rubber tree for home.....	T. DR. S.
Flowering Fruit and Shade Trees in many old and new varieties.	
Fraxinus excelsior (European Ash). A fine shade or street tree.....	H. ML. L.
Fraxinus ornus (Flowering Ash). Fragrant white flowers.....	H. DR. S.
Fraxinus uhdei (Mexican Ash). Glabrous semi-evergreen, fast grower, and develops into a fine shade tree of vase or upright form.....	HH. ML. M.
Fraxinus velutina var. glabra (Modesto Ash). Fine light green tree.....	H. DR. M.
Fraxinus velutina var. coriacea (Montebello Ash). Darker foliage.....	H. DR. M.
Fremontia mexicana (Flannel Bush). Yellow flowering evergreen.....	HH. DR. S.
<b>Fruit Trees for Southern California, in both deciduous and sub-tropic varieties.</b>	
Ginkgo biloba (Ginkgo Tree). Maidenhair like leaves, fall color.....	H. ML. L.
Ginkgo biloba (Male Tree). Like seedlings, but produces no fruit.....	H. ML. L.
Grevillea robusta (Silk Oak). Orange flowers, fast growing fern leaf.....	HH. DR. L.
Hakea laurina (Sea Urchin). Dark foliage, red flowers very desirable.....	HH. DR. S.
Hakea suaveolens (Needle Bush). Grows to likeness of dwarf pine.....	HH. DR. S.
Hibiscus mutabilis hibred (Tree Hibiscus). Fine flowering tree.....	HH. ML. S.
Hymenosporum flavum (Hymenosporum). Fragrant yellow flowers.....	T. DR. M.
Jacaranda acutifolia (Jacaranta). Blue flowers, fern foliage.....	T. ML. M.
Koelreuteria paniculata (Golden Rain Tree). Yellow flowers.....	H. DR. S.
Koelreuteria integrifoliola (Fernleaf Koelreuteria). Fine foliage.....	H. DR. S.
Lagerstroemia indica (Crape-Myrtle). Variety of colors in flowers.....	H. ML. S.
Lagunaria patersoni (Primrose Tree). Pink flowers, gray foliage.....	HH. ML. M.
Laurus nobilis (Laurel). A dark, aromatic foliage, compact growth.....	H. DA. S.
Leucadendron argenteum (Silver Tree). Beautiful glistening foliage.....	T. DR. S.
Libocedrus decurens (Incense Cedar). Handsome columnar conifer.....	H. DR. M.
Ligustrum lucidum (Privet). A tree for street or patio planting.....	H. DR. S.
Liquidambar formosa (Chinese Sweet Gum). Semi-evergreen tree.....	H. ML. L.
Liquidambar styraciflua (Sweet Gum). Columnar form, red fall foliage.....	VH. ML. L.
Liriodendron tilipifera (Tulip Tree). Fine shade tree, very clean.....	VH. ML. L.
Liriodendron chinensis (Chinese T.T.). Larger leaves and flowers.....	H. ML. M.
Lyonothamnus asplenifolius (Santa Cruz Ironwood). Fern foliage.....	HH. DR. M.
Macadamia ternifolia (Queensland Nut). Holly foliage, edible nuts.....	HH. DR. M.
Magnolia grandiflora (Southern Magnolia). Shade and specimen tree.....	H. ML. L.
<b>Also dwarf flowering Magnolias in different varieties and colors.</b>	
Maytenus boaria (Mayten). Weeping tree of graceful habit.....	HH. ML. S.
Malus var. (Crab Apple). Bechtel, Arnold, Hopi, and others.....	H. ML. S.
Melia azedarach umbraculiformis (Umbrella Tree). Quick shade tree.....	H. DR. S.
Morus alba var. fruitless in (Kigan M. or Striblings). A fine shade tree for hot and dry soil conditions, dense shade, no fruit.....	H. DR. L.
Morus alba var. pendula (Weeping Mulberry). A weeping specimen.....	H. DR. S.
Morus nigra (Persian Mulberry). The best fruiting mulberry.....	HH. DR. S.
Nerium oleander (Oleander). Flowering tree for hot desert area.....	HH. DR. S.
Nyssa sinensis (Chinese Sour-Gum). Beautiful fall colors.....	H. ML. M.
Olea europaea (Olive). Fine patio tree, also Spanish landscape.....	HH. DR. S.
Parkinsonia aculeata (Palo Verde). Yellow flowers, light foliage.....	H. DR. S.
Paulownia tomentosa (Royal Paulownia). Large violet flowers.....	VH. ML. L.
Paulownia fortunei (Chinese Paulownia). Large white and purple flowers.....	H. ML. M.
Persea americana (Avocado). A fine fruit and shade tree.....	T. DR. L.
Photinia arbutifolia (Toyon). Red berries and dark foliage.....	H. DR. S.
Picea smithiana (Himalayan Spruce). The best spruce for S. Calif.....	H. ML. M.
Pinus bungeana (White Bark Pine). Famous Chinese pine, slow grower.....	H. ML. M.
Pinus canariensis (Canary Island Pine). Fine upright, long needles.....	HH. DR. L.
Pinus coulteri (Big-Cone Pine). A picturesque tree, long needles.....	H. DR. M.
Pinus halepensis (Aleppo Pine). Fast grower, farm and windbreak tree.....	H. DR. M.
Pinus patula (Mexican White Pine). Long drooping needles, fine tree.....	HH. DR. M.
Pinus pinea (Italian Stone Pine). Fine seacoast tree, edible nuts.....	HH. DR. M.
Pinus torreyana (Torrey Pine). Fast growing, long needled pine.....	HH. DR. L.
Pinus radiata (Monterey Pine). Seacoast pine, short lived inland.....	HH. DR. M.
Pinus tabulaeformis (Chinese Pine). Colorful pine, orange and red bark.....	H. ML. S.
Pinus yunnanensis (Y. Pine). Like former except for longer needles.....	HH. ML. S.
Pistacia chinensis (Chinese Pistacia). Fine tree, beautiful foliage.....	H. DR. S.
Pittosporum crassifolium (Karo). Gray foliated tree for patios.....	HH. DR. S.
Pittosporum eugenioides (Tarata). Yellow-green foliage, upright.....	HH. ML. S.
Pittosporum phylliraeoides (Weeping Pittosporum). Fine pool tree.....	HH. ML. S.
Pittosporum rhombifolium (Queensland Pittosporum). Fine glossy foliage.....	T. DR. M.
Pittosporum undulatum (Orange Pitt.). Fine tree for patio or yard.....	T. DR. M.
Pittosporum viridiflorum (Cape Pitt.). Fine deep green foliage.....	T. DR. S.
Platanus acerifolia (London Plane). Shade or street tree.....	VH. ML. L.

**Shrubs (of many varieties) trained to grow in tree form—fine patio specimens.**

<i>Platanus occidentalis</i> (Southern Sycamore). Light bark and foliage.....	H. ML. L.
<i>Platanus racemosa</i> (Western Sycamore). Picturesque tree for shade.....	H. DR. L.
<i>Podocarpus gracilior</i> (African Fern-Pine). Fine, graceful foliage.....	HH. ML. M.
<i>Podocarpus macrophylla</i> (Yew Pine). Stiff foliage, light green color.....	H. ML. S.
<i>Populus alba</i> , var. <i>bolliana</i> (Silver Poplar). Upright, silver tree.....	VH. ML. M.
<i>Populus canadensis</i> (Carolina Poplar). Large leafed shade tree.....	VH. ML. L.
<i>Populus simoni</i> (Chinese Lombardy). A better tree than Ita. Lombardy.....	VH. ML. M.
<i>Prunus caroliniana</i> (Carolina Cherry). Glossy evergreen foliage.....	H. ML. M.
<i>Prunus lyoni</i> (Catalina Cherry). Holly type evergreen foliage.....	H. DR. S.
<i>Prunus pissardi</i> (Purple Leaf Plum). Handsome foliage and flowers.....	H. ML. S.
<i>Pterocarya stenoptera</i> (Chinese Wing Nut). Fine for parks and farms.....	H. DR. L.
<i>Quercus agrifolia</i> (California Live Oak). Fine shade tree.....	H. DR. L.
<i>Quercus bicolor</i> (Swamp White Oak). Has proven to be good in Calif.....	VH. ML. L.
<i>Quercus chrysolepis</i> (Canon Oak). Fine tree for lawn and yard.....	H. ML. L.
<i>Quercus coccinea</i> (Scarlet Oak). Fine deciduous tree, fall colors.....	VH. ML. L.
<i>Quercus cerres</i> (Turkey Oak). Very fast growing deciduous tree.....	H. DR. L.
<i>Quercus engelmanni</i> (Mesa Oak). Semi-evergreen picturesque tree.....	H. DR. L.
<i>Quercus ilex</i> (Holy Oak). This oak is rated by world horticulturists as being the best and most handsome live-oak. Dark holly foliage.....	H. ML. L.
<i>Quercus falcata</i> (Southern Red Oak). Fine shade and lawn tree.....	H. ML. L.
<i>Quercus lobata</i> (Valley White Oak). Graceful deciduous tree.....	HH. DR. L.
<i>Quercus prinus</i> (Chestnut Oak). Fast growing deciduous shade tree.....	VH. ML. M.

**Oaks rank as the noblest and most durable of our ornamental trees.**

<i>Robinia hispida</i> var. <i>monument</i> (Upright Moss Locust). Deep pink flowers.....	VH. DR. S.
<i>Robinia pseudoacacia</i> (Black Locust). Shade tree for poor soil.....	VH. DR. M.
<i>Robinia pseudoacacia</i> var. <i>decaisneana</i> (Pink Locust). Pink flowering tree.....	VH. DR. M.
<i>Robinia pseudoacacia idahoensis</i> (P. Locust). Dark pink flowers.....	VH. DR. M.
<i>Robinia pseudoacacia umbraculifera</i> (Globe Locust). Fine patio tree.....	VH. DR. S.
<i>Salix alba</i> var. <i>vitellina</i> (Golden Willow). Weeping, yellow bark.....	H. ML. L.
<i>Salix babylonica</i> (Weeping Willow). Fine tree for lake planting.....	H. ML. L.
<i>Salix babylonica cripa</i> (Ringleaf Willow). Weeping curly leaves, odd tree.....	H. ML. M.
<i>Salix humboldtiana</i> (Evergreen Willow). Upright, with heavy foliage.....	T. ML. S.
<i>Sassafras variifolium</i> (Sassafras). Odd tree, fragrant leaves.....	VH. ML. M.
<i>Schinus molle</i> (Calif. Pepper). Well known tree, weeping foliage.....	HH. DR. L.
<i>Schinus terebinthifolia</i> (Brazilian Pepper). Stiff compact growth.....	T. DR. S.
<i>Sequoia gigantea</i> (Sequoia). Fine outdoor Christmas tree.....	VH. ML. L.
<i>Sequoia sempervirens</i> (Redwood). The California state tree, upright.....	H. ML. L.
<i>Sorbus aucuparia</i> (Mountain Ash). Red berries, colored foliage.....	VH. ML. S.
<i>Sophora japonica</i> (Pagoda Tree). Cream colored flowers, fine foliage.....	H. DR. M.
<i>Sophora secundiflora</i> (Mescal Bean). Blue fragrant flowers, evergreen.....	HH. DR. S.
<i>Tamarix articulata</i> (Athel). Pink flowering tree for dry soil.....	HH. DR. S.
<i>Taxodium mucronatum</i> (Montezuma Cypress). Fine evergreen, weeping.....	H. ML. L.
<i>Tilia americana</i> (Linden). Ornamental shade tree, fragrant flowers.....	VH. ML. L.
<i>Ulmus parvifolia</i> (Chinese Elm). Fine shade tree, short deciduous period, pink bark, dark foliage, and semi-weeping, fast grower for home.....	H. ML. L.
<i>Ulmus par</i> , var. <i>sempervirens</i> (Evergreen Chinese Elm). Fine weeping tree.....	H. ML. M.
<i>Ulmus pumila</i> (Siberian Elm). Light-green foliage, gray bark, very fast growing tree that is used where a very hardy tree is needed.....	VH. DR. L.
<i>Umbellularia californica</i> (Calif. Laurel). Dark green, aromatic leaved.....	H. DR. L.
<i>Virgilia oroboides</i> (Cape Virgilia). Fast grower, pink flowers, gray leaves.....	T. DR. S.
<i>Washingtonia robusta</i> (Mexican Fan Palm). A much used palm in Calif.....	H. DR. L.
<i>Widdringtonia schwarzii</i> (African Cypress). Rare upright conifer.....	HH. DR. S.
<i>Zelkova serrata</i> (Zelkova). Tree much like Chinese elm, glabrous leaf.....	H. ML. L.

**CONCLUSION**

We are at present propagating trees from many different parts of the world that have proven to be satisfactory in climates that are of a California nature, and if you don't see your favorite tree listed, perhaps we are propagating it, or upon request we can get one for you.

As there's a spot for every tree and a tree for every spot, let us show you the tree for your need; for trees are the backbone of any landscape, and a misplaced tree can weaken the best landscape.

Last but not least, a dollar tree planted in a ten dollar hole will out-grow a ten dollar tree planted in a dollar hole. So give your tree a good start.

Yours for a better planted California

**WILLARD HAGEN, Arboriculturist**

Member of the National Shade Tree Conference  
and the Los Angeles State and County Arboretum
